Presentation

In line with the goals of introducing English in Primary Education, it is of primary importance to align the syllabus with teaching/learning and assessment to ensure that we are providing learners-future citizens- with quality education.

The didactic guide is a reference document. It is developed by the National Education Board. It is aligned with the Competency-Based Approach. It is a valuable tool which complements the syllabus. It is exclusively designed to facilitate the implementation of the syllabi of key stage 1 (the 3rd and the 4th year Primary Education) and to avoid the dilution of information. It also aims to help the practitioners to implement the content of the syllabi in the classroom practice in terms of what the learners should know and what they are able to do.

The purpose of this document is also to make the syllabi components readable, accessible, usable and transferable. The presentation of key stage1 Syllabi will get practitioners acquainted with the notions of **competences**, **cross-curricular competences**, **components of the competences**, **domains**, **the resources** and the **cross-curricular resources**.

A thorough reading of this document will help practitioners understand the framing of the syllabi. In addition, this guide is meant to unify understanding of key concepts related to **pedagogy, didactics, assessment**, **the characteristics of young learners** and the **strategies** through which they learn English effectively in Primary Education. It includes **teaching/ learning principles**. This guide is also based on **principles and considerations** related to teaching/learning English to young learners.

General Orientation

1. Children Growth

A number of thinkers and theorists have described how children develop and change. Piaget suggested that children go through four different stages. They start at the ***sensori-motor stage*** from birth until about age 2**,** and then proceed through ***the preoperational stage*** between 2 and 7. From the age ***of 7 to 11***, they pass through ***the concrete-operational stage*** to finally reach the ***formal operational stage*** from 12years old through adulthood. According to Piaget, children in ***the concrete-operational stage*** begin to think logically about concrete events and to understand the concept of conservation; that the amount of liquid in a short, wide cup is equal to that in a tall, skinny glass, for example. Thinking becomes more logical and organized, but still very concrete. They start using inductive logic, or reasoning from specific information to a general principle. At this point in development, they tend to struggle with abstract and hypothetical concepts.

Lev Vygotsky, on the other hand, argued that ***social interaction*** is crucial in the child development and the role of the knower or what he called the 'More Knowledgeable Other' who provides guidance to help a child who has entered the **Zone of Proximal Development (ZPD)** where they are ready to learn new things**.** For Vygotsky, ***learning is a social process.***

Abraham Maslow on his turn developed the theory of human needs and introduced his concept of a hierarchy of needs for the first time in 1943. According to this theory, human beings are motivated by their needs. They are born with an innate desire for self-actualization- the fulfillment of one's talents and potentialities. Yet, in order to attain that ultimate goal, some basic needs must be achieved. In a pyramid like structure, Maslow mentioned the five key necessities (from bottom to top: ***Physiological needs, Safety, Social needs, Esteem, Self-actualization***) required for a child's development and evolution. He argued that if some needs are not satisfied, human beings may be unable to move forward and fulfill the needs in higher levels.

Like Maslow, Erik Erikson's theory of development entails that personality develops in a predetermined order through eight stages of psychosocial development, from infancy to adulthood. According to him, each stage builds on the preceding one and paves the way for the following period of development. During each stage, individuals experience a psychological crisis that might affect the personality's development either positively or

negatively. Successful completion of each stage results in acquiring psychological strengths that will serve individuals for the rest of their lives. However, if they fail, they will not develop the essential skills needed for a strong sense of self. Children from 5 to 12 years old are in ***stage 4: Industry Vs. Inferiority***. During this stage, children may start comparing themselves to others and also their families to other families. When they succeed, they will feel industrious. However, if they have repeated negative experiences, they may develop feelings of inferiority. So, they should be helped to find areas where they can do well and shine.

2. Characteristics of Young Learners

Young children, especially those up to the ages of nine and ten, learn differently from older children, adolescents and adults in the following ways:

- ☺ They ***respond to meaning*** even if they don't understand individual words.

- ☺ They often ***learn indirectly*** rather than directly-that is they take the information from all sides, learning from everything around them rather than only focusing on the precise topic they are being taught. ***They rely on spoken words and the physical world to convey meaning.***

- ☺ Their understanding comes not just from explanation, but also from what they ***see and hear,*** and crucially, have a chance to ***touch*** and interact with. They are as well able to work and learn from others.
- ☺ They find abstract concepts such as grammar rules difficult to grasp. They ***learn better through concrete things*** rather than abstract concepts.

- ☺ They generally ***display enthusiasm*** for learning and a ***curiosity*** about the world around them.
- ☺ They have a need for individual ***attention*** and ***approval*** from the teacher. They respond well to ***praising***.
- ☺ They are keen to ***talk about themselves*** and respond well to learning that uses themselves and ***their own lives*** as main topics in the classroom.

☺ They have a ***limited attention span***; unless activities are extremely engaging, they can get easily bored, losing interest after ten minutes or so. They ***enjoy learning through playing and working together.***

☺ They ***ask questions*** all the time. They are very ***active and imaginative***.

☺ They ***enjoy imitating*** and are ***skilfull in listening*** accurately and ***mimicking*** what they have heard.

(J. Harmer. 2007, The Practice of English Language Teaching, England: Pearson Education Limited)

3. Learning/ Perceptual Styles :

Learning/ Perceptual Styles refer to how a person learns, remembers and understands best. The basic types of learning styles are ***visual, auditory , kinaesthetic and tactile (VAKT)***.

👁**Visual** : learners who get information best by ***seeing*** it.

- 🕮 ***Visual verbal learners*** like to see information in the form of words or written language.
- 🖧 ***Visual non-verbal learners*** like to see information in graphic form (charts, tables, graphs, pictures, symbols or graphic organizers.

👂**Auditory:** learners who get new information best by ***listening*** and ***hearing***. These learners work well in ***group settings where vocal collaboration is present and may enjoy reading aloud*** to themselves, too.

🚶**Kinesthetic**: learners who get new information best by ***doing or moving.*** kinesthetic learners are hands-on and thrive when ***engaging all of their senses during course work***.

✋**Tactile:** learners who get new information best by touching and manipulating objects.

❖ **What teaching strategies are good for different learning/perceptual styles?**

👁**Visual :**

📖**Visual verbal:**

- 📖 **Write instructions**, questions and answers on the blackboard.
- 📖 Let learners **read silently.**
- 📖 **Give learners an example** of finished assignments so that they can see what they should do.

🖧**Visual non verbal:**

- 🖧 **Show** assignments, activities or tasks so learners can see what to do.
- 🖧 **Use visual aids** like diagrams, pictures, charts, graphic organizers to represent information.
- 🖧 **Introduce new words** and ideas using examples, images ...

👂 **Auditory:**

- 🗣 **Read** instructions for activities, tests and homework assignments aloud.
- 🗣 **Describe** the information on charts, graphs or diagrams.
- 🗣 Ask learners to work in **small groups** to discuss problems or answers.
- 🗣 Let learners **ask and answer** questions during lessons or presentations.
- 🗣 Give an **oral** summary of important ideas from lessons or readings.
- 🗣 Let learners **present and listen** to presentations.

🕴 **Kinesthetic &** ✋**Tactile :**

- ✋ Use **role plays** and simulations.
- ✋ Let learners work with **models or different materials.**
- ✋ **Visit places** connected with the topic.
- ✋ **Organize group or pair work** that requires learners to stand up and move around the classroom.

Some activities are good for more than ***one perceptual style***: ***flash cards*** are both ***visual and tactile***. If students ***repeat*** the words while reading it is both ***auditory and kinesthetic.***

Classroom Guidelines

Before we tackle learning in details, we should create conducive teaching/learning atmosphere. Teaching English as a foreign language to young learners requires a good deal of **preparation**, **effective organization** and **good management** so as to enable teachers monitor individual as well as groups of learners. Engagement and fun are also key features to setting firm basis for young learners' education. Part of the positive learning experience calls for the following aspects:

❁Print rich environment

Right from the first days at school, learners should see age appropriate books and reading materials, colourful pictures, posters and wall charts. One way to involve learners and encourage them to learn is to display their works.

❁The organization of the classroom

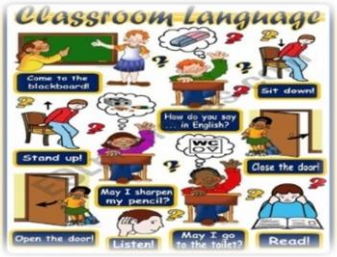

The classroom should be organized in a way that facilitates the teaching/learning process and fosters interaction between learners. The teaching/learning process could be achieved through class-presentation, or pair and small group work which promote collaboration and exchange of ideas and experience. Teachers need to choose the arrangement that is suitable to the lesson, to the classroom and to whether the furniture is movable.

❁Establishing rules and routines

This ensures a positive learning experience because learners will acquire habits that make work easy for both teachers and learners and thus achieve the learning objectives and the instructional goals. So, right from the beginning of the year, teachers should discuss the classroom with the learners along with the consequences of good behaviors and misbehaviors. The teacher may post these rules on the classroom walls.

❁Classroom language

Establishing rules and routines goes hand in hand with adopting simple and everyday language. This might include useful phrases or expressions like greeting and saying good bye, asking for permission, thanking, apologizing, saying one's name, age, asking questions when they don't understand, etc.

❁Span of attention

The young learners' span of attention varies according to their age. Children generally have a short attention span. Some specialists say if a child can focus for only five minutes, that is age appropriate. Others say that children aged between 8 and 10 have a span of attention that varies from 16 to 30 minutes. However, some children may fall outside of that spectrum. Consequently, teachers should make sure there is a variety of activities, i.e., changing activity every ten minutes or so, to cater for different learning styles and to avoid boredom.

❁Instruction giving:

The instruction should be simple, brief and accurate. Teachers should explain, demonstrate illustrate the instructions, and check their understanding. Young learners do not learn simply by being told what to do. In addition, teachers are advised to pause after they give any instruction, i.e. a wait time/think time is necessary for learners. It is also essential to monitor learners' work and provide them with enough time to carry out the activities.

❁Teaching strategies

Teachers are expected to bring to their classes a wide range of age appropriate **learning strategies** to make learning fun and effective like using audio visuals aids (songs, videos, realia, pictures, diagrams, etc...), games, role plays, drilling in chorus and individually, cooperative learning, etc.

Inclusive education

All pupils even those with special needs have the right to an education that is appropriate to their needs. The aims of education for pupils with special needs are the same as for the other pupils. They are granted full access to education so as they can pursue their dreams and contribute to the development of the community.

Tips for Teaching Children

- ***Praise and encourage*** children for trying and when successful.
- **Praise** with ***words and through gestures***.
- Try to ***link*** lessons with children's ***experiences*** and everyday life.
- Use ***group or paired work*** so that children can learn from their classmates.
- ***Read*** out what you have written on the board.
- ***Face the class*** when speaking.
- Speak ***clearly*** and loudly but don't shout.
- Try to ***ensure children*** practice their skills using different materials, for example, reading words on flashcards, writing words, reading words in books.
- ***Check*** the children's ***understanding*** before moving on to a new topic.
- Encourage children to watch and ***listen to their peers***.
- Make sure you have the ***class attention*** when teaching.
- Encourage the child to use a pointer or their finger when reading to help them keep their place.

Framing of the Syllabus

It is worth introducing the terminology related to the components of Primary Education Syllabus to facilitate its readability.

The syllabus consists of two main parts: the **exit profile** and a **description** of the syllabus content.

A. **The exit profile**:

1. **The global competence**: defines concisely what is expected from learners and what they are able to do, according to their age, needs and immediate environment, at the end of the year, the key stage or the cycle to ensure the vertical coherence in the curriculum.

2. ***Values:*** The purpose of education is to transmit the values that a society has chosen for itself.

   -Values common to all its members: political and social, cultural and spiritual whose objective is to consolidate the national unity.

   -Individual values: emotional and moral values, aesthetic values and humanist values opening onto the universal.

   According to the Orientation Law, the missions of school in terms of spiritual and civic values are:

   1. **Assertion of the Algerian personality and consolidation of the unity of the nation through the promotion and preservation of the national values.**
   2. **Training on citizenship, promoting and developing human resources;**
   3. **Openness to the world;**
   4. **Reaffirmation of the principle of democratization.**

   Each discipline, according to its own vocation, takes in charge a specific and preferential way, or in a complementary way, the values which underlie the aims of the education system.

3. Cross-Curricular Competences:

The cross-curricular competences complement each other and are of four different types: **intellectual**, **methodological**, ***communicative and personal and social.*** Furthermore, learning situations very often draw on these competences synchronously.

a- Intellectual: refers to the basic competences (using information, exercising critical thinking, solving problems and using creativity) that can be mobilised as resources in the development of competences.

b- Methodological: is the combination of skills and procedural knowledge that are mobilized to solve problem situations, to adapt procedures to the resolution of specific situations, or to develop new procedures to solve new situations.

c- Communicative: concerns all areas of communication, expression and verbal and non-verbal interaction. Languages and the various conventional languages are considered to support the development of communicative competences.

d- ***Personal and social:*** these are all the integrative skills that can mobilise the individual and/or collective resources of a group to carry out a project.

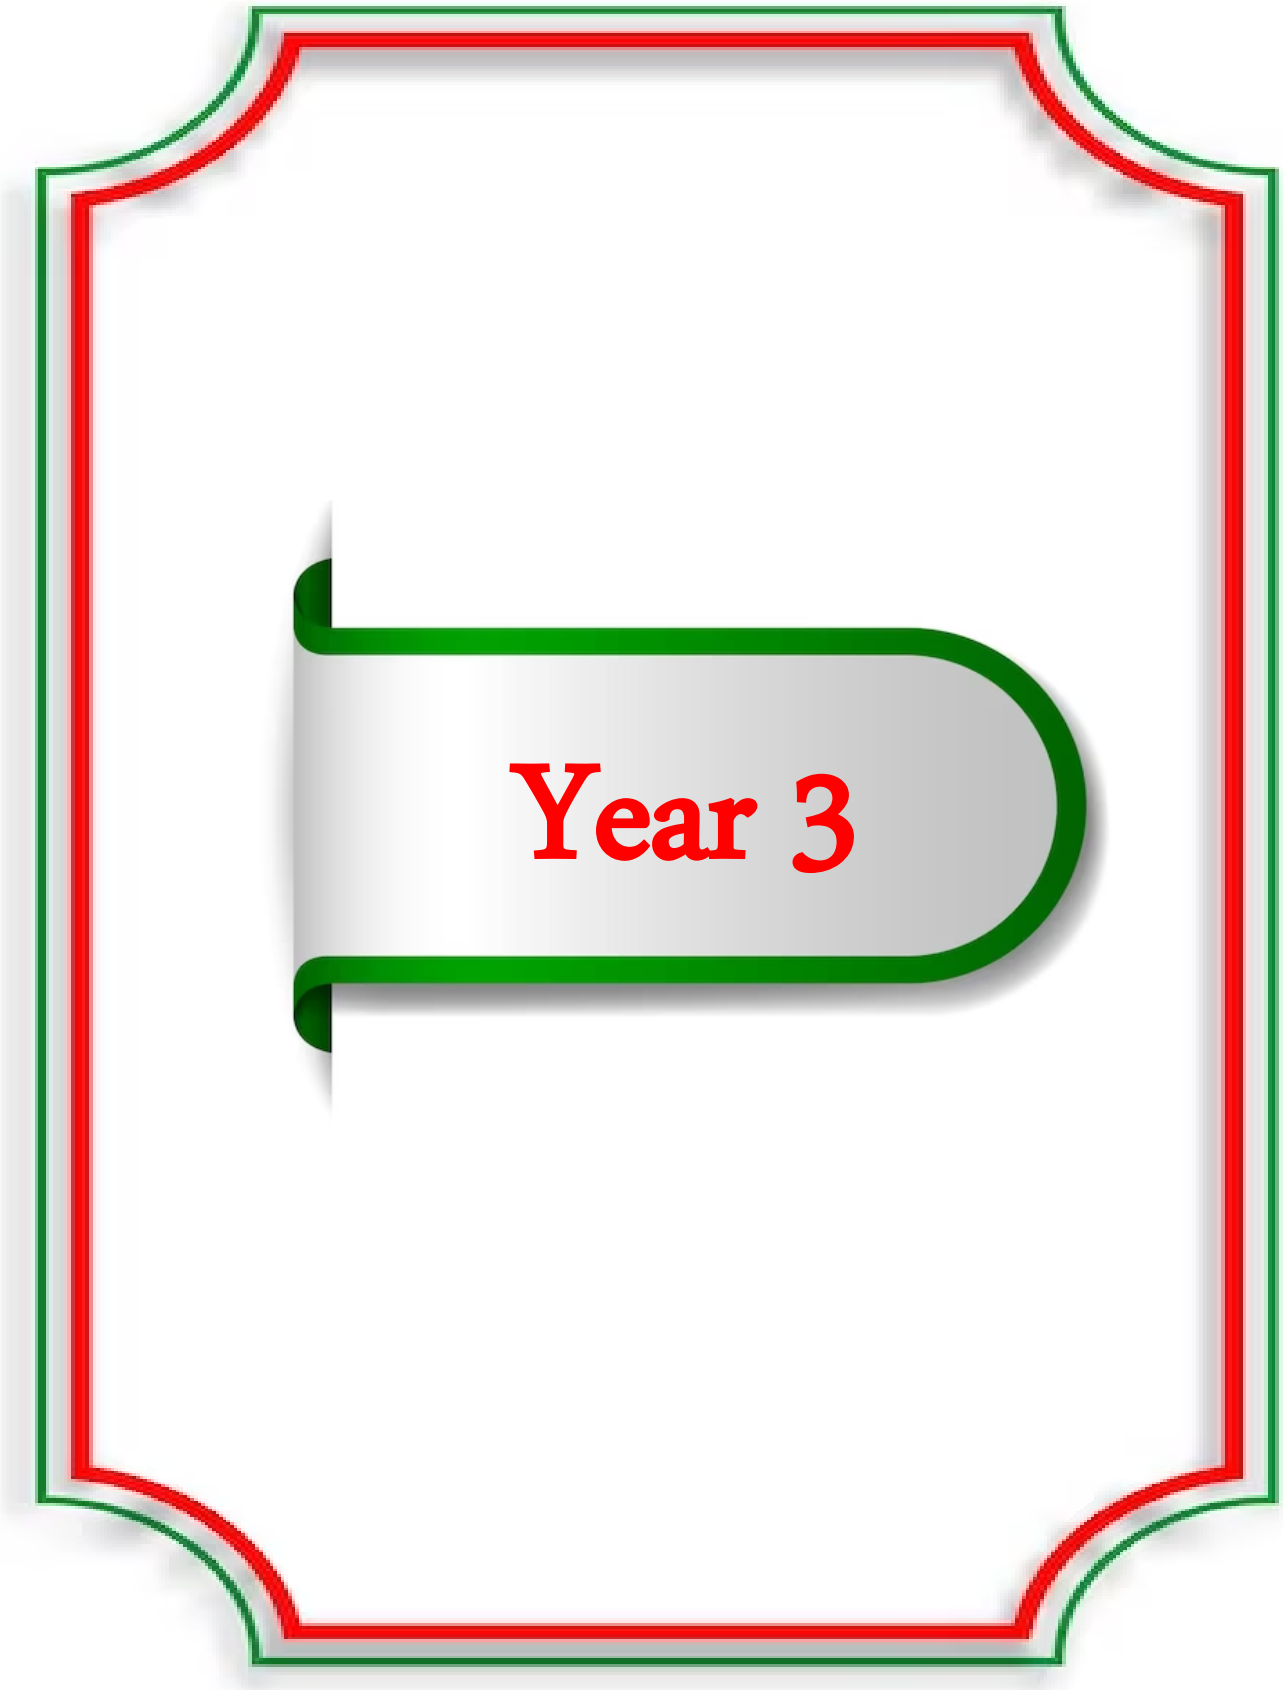

B. Domains: There are four domains: **oral comprehension, oral production, written comprehension** and **written production.**

C. Target competences: There are four target competences. They serve the ***global competence.*** Each one is composed of three components***: knowledge, skills*** and ***attitudes.***

D. Resources: They are of two types:

1- Linguistic resources: they include ***key vocabulary*** and ***lexis, grammar and pronunciation.***

2- Cross-curricular resources: They are segments of each of the cross-curricular competences, **intellectual**, **methodological**, ***communicative and personal and social,*** used in interaction with each other to contribute to the structure of the learner's skills and attitudes in a certain learning situation or for specific instructional purposes.

Year 3

Key Stage 1- Year 3 Syllabus

KEY STAGE 1 **YEAR3**

Exit Profile	**Global competence**	***Interact orally, comprehend oral messages and identify the meaning of words, decode symbols, read simple messages and write letters, words and simple sentences.***	
	Values	**National Identity**	➢ The learner is proud of being Algerian, Muslim, Arab and Amazigh.
		National Conscience	➢ S/he respects her/his nation's constant fundamental tenets.
		Citizenship	➢ S/he demonstrates respect towards others.
		Openness to the World	➢ S/he Exchanges and communicates with friends from English-speaking countries to widen her/ his friendship.
	Cross-curricular competences	**Intellectual Competence**	**The learner can** ▪ discover the relationship between the context, paralinguistic features and the meaning of words and expressions. ▪ discover the importance of words and chunks used in oral interaction. ▪ demonstrate understanding of the strategies of decoding symbols. ▪ demonstrate understanding of the features of writing.
		Methodological Competence	**The learner can** ▪ make use of the context and paralinguistic features to identify the meaning of words and expressions. ▪ exploit the linguistic repertoire and paralinguistic features to interact orally. ▪ employ the strategies of decoding symbols as required. ▪ implement the features of writing letters appropriately.
		▪ **Communicative Competence**	**The learner can:** ▪ react to verbal and non-verbal messages to show understanding ▪ select the appropriate words and chunks to interact orally. ▪ communicate the decoding strategies to peers. ▪ achieve readability through the appropriate use of the features of writing.
		▪ **Personal and Social Competence**	**The learner can:** ▪ respond to oral messages. ▪ consider speech acts when interacting. ▪ consider the strategies of decoding symbols to achieve others' understanding. ▪ value others' writings.

<table>
<tr><th>Domains</th><th>Target Competence</th><th>Components of the Competence</th><th>Resources</th><th>Cross-Curricular Resources</th><th>Timing</th></tr>
<tr><td>Oral comprehension</td><td>Comprehend oral messages and identify the meaning of words in familiar context using paralinguistic features.</td><td>The learner can:
1. recognise the meaning of words and expressions.
2. use the context and paralinguistic features to deduce the meaning of words and expressions.
3. be an attentive listener.</td><td rowspan="2">Supports: Videos, songs, cartoons, posters, pictures, short stories, etc.

<u>Key Vocabulary</u>
Words and chunks related to the learners' interests, immediate environment and needs.
▪ Salutations.
▪ Numbers (0-10)
▪ Days of the week
▪ Family members, friends, and mates.
▪ Languages.
▪ Colours.
▪ School things.
▪ School subjects.
▪ Home (flat/ house...).
▪ Toys.
▪ Pets.
▪ Adjectives
▪ Lexis related to parties

<u>Grammar</u>
Oral formulaic expressions and chunks related to the learners' interests, immediate environment and needs.

▪ The imperative (classroom commands)
▪ Contracted forms of to be and to have: ('m=am, 's=is/has, 're=are, 've=have)
▪ Present simple (To be / to have / to live / to love...)</td><td>Intellectual
-Discover the relationship between the context, paralinguistic features and the meaning of words and expressions.
Methodological
-Make use of the context and paralinguistic features to identify the meaning of words and expressions.
Communicative
-React to verbal and non verbal messages to show understanding.
Personal and Social
-Respond to oral messages.</td><td rowspan="2">29h</td></tr>
<tr><td>Oral production</td><td>Interact orally in communicative situations related to the learner's daily concern and interests using simple words and expressions.</td><td>The learner can:
1. identify simple words and expressions to interact orally.
2. use simple words and expressions to interact orally.
3. respect the interlocutor.</td><td>Intellectual
-Discover the importance of words and chunks used in oral interaction.
Methodological
-Exploit the linguistic repertoire and paralinguistic features to interact orally.
Communicative
-Select the appropriate words and chunks to interact orally.
Personal and Social
-Consider speech acts when interacting.</td></tr>
</table>

			▪ Statements ▪ Questions: *__Wh-questions__ (how ,what, where, when) *__yes/no questions__ ▪ Prepositions: *time: in, on *location: in, next to / opposite ▪ Articles (a, an) ▪ Pronouns		
Written comprehension	***Decode symbols, read simple messages of about 30 words and understand the meaning of words and structures using graphophonic knowledge and visuals.***	**The learner can:** 1. identify reading basics and decoding strategies. 2. use reading basics and decoding strategies. 3. show respect to his peers' readings.	**Supports:** Videos, songs, cartoons, posters, pictures, short stories, etc. **-Words, expressions and short texts.** **<u>Phonics (Sound and Spelling)</u>** - sounding letters of the alphabet - sounding numbers -vowel sound/i/ in 'live, in..' - consonant sound discrimination: -vowel sound **/æ/-/ɒ /-/e/-ʌ** **<u>Capitalization / Punctuation</u>** ❖ **Capital letters**: -Beginning of sentences, names of people, places and languages, days of the week personal pronoun subject 'I/ ❖ **Punctuation:** -Full stop, question mark, comma, apostrophe in contracted forms.	***Intellectual*** -Demonstrate understanding of the strategies of decoding symbols. ***Methodological*** -Employ the strategies of decoding symbols as required. ***Communicative*** -Communicate the decoding strategies to peers. ***Personal and Social*** -Consider the strategies of decoding symbols to achieve others' understanding.	**8 h**

Written production ***(Most of the time, the domains are integrated)***	***Write letters, words and simple sentences using correct handwriting and punctuation.***	**The learner can:** 1. recognize the features of writing letters (sizing, spacing and alignment). 2. use features of writing letters correctly. 3. respect the features of writing letters.	**<u>Handwriting</u>** ▪ Fine motor skills through geometric lines and shapes. ▪ Numbers as numerals. ▪ Script/print style ▪ Script lower case/Script upper case ▪ Numbers ▪ script handwriting practice at letter and short word/sentence/text levels **<u>Punctuation</u>** • English question mark **(?)** • English comma **(,)**	***Intellectual*** -Demonstrate understanding of the features of writing. ***Methodological*** -Implement the features of writing letters appropriately. ***Communicative*** -Achieve readability through the appropriate use of the features of writing. ***Personal and Social*** -Value others' writings.	**5 h**
My Project : My Pictionary					

Topics & Communicative Objectives

Year 3			
SEQUENCE		**SECTIONS**	**COMMUNICATIVE OBJECTIVES**
①	***Family & Friends***	***① Family***	- Introduce family members (family relationship and name). - Ask and answer questions about name.
		② Friends	- Greet people and take leave. -Introduce oneself (name, age, language and place of residence). - Introduce a friend (name -age) - Ask and answer questions about a friend's name and age.
②	***School***	***① School Objects***	• Name different classroom objects and colours. • Identify different classroom objects and colours. • Locate classroom objects. • Ask and answer questions about school objects and their colours.
		② School Subjects	• Name different school subjects and days of the week. • Identify different school subjects and days of the week. • Ask and answer questions about school subjects and days of the week.
③	***Home***	***①Describing a House***	○ Name different rooms in a flat/ house. ○ Identify different rooms in a flat/ house. ○ Ask and answer questions about rooms in a flat/ house.
		② Locating Rooms in a House	○ Locate people in a flat/ house. ○ Locate different rooms in a flat/ house. ○ Ask & answer questions about people in a flat/ house.
④	***Playtime***	***① Toys***	❖ Name toys. ❖ Identify different toys. ❖ Ask & answer questions about toys.
		② Favourite Toy	❖ Name favourite toys and their colours. ❖ Identify different toys and their colours. ❖ Ask and answer questions about someone's favourite toy and its colour.
⑤	***Pets***	***① Pets***	➢ Name pets. ➢ Identify pets. ➢ Ask and answer questions about pet's names.
		② Pet's Body Parts	➢ Name the pets' body parts. ➢ Identify the pets' body parts. ➢ Ask and answer questions about the pets' body parts.
⑥	***Birthday***	***① Party Invitation***	▪ Express offers and invitations. ▪ Express and respond to thanks. ▪ Ask and answer questions about a party (time).
		②Party Celebration	▪ Name different objects and foods related to a party. ▪ Express wishes, feelings and emotions with simple words.

Table : Topics and Communicative Objectives- Year 3

1. Planning

Practitioners and users of this guide need to be aware of the different stages of the teaching/learning process. This latter comprises **planning**, **implementation**, and **evaluation.** Planning learning is the first step towards successful teaching. A learning plan is an action plan that defines how learning can be achieved. It ensures clarity of vision so that the progress is efficient.

Time Allocation:

Key stage 1 learners have English class of forty five minutes twice a week.

Level	Yearly timing	Weekly timing	Annual amount
Key stage 1	28 weeks	1h30 /week	42 hours

Table1: Time Allocation

N.B. The time allotted for assessment and remediation is four (04) weeks.

a. The Teaching/ Learning Framework:

There are ***06 learning sequences*** along the **3rd** Year Primary Education. Each sequence comprises ***2 sections.*** Each ***section*** requires ***3 hours over a period of 2 weeks.***

Along the school year, there are three **(03)** phases of 2 hours devoted to ***assessment***, ***remediation*** and ***standardization.*** See the table below:

Sequence 1 2 sections	***Pause 1***	**Sequence 3** 2 sections	***Pause 2***	**Sequence 5** 2 sections	***Pause 3***
Sequence 2 2 sections	***Assessment, Remediation & standardization***	**Sequence 4** 2 sections	***Assessment, Remediation & standardization***	**Sequence 6** 2 sections	***Assessment, Remediation & standardization***

Table3: **The Teaching/ Learning Framework – Year 3**

b. The section Layout: The section is the basic component of a sequence. It includes **4 *sessions*** of 45 minutes each. In each session, there is either one or 2 communicative ***objectives*** to be achieved through a set of ***tasks***.

Section	***Session 1***	♬ I Sing & Have Fun	10 mn
		I Listen & Repeat	35 mn
	Session 2	I Read & Discover	45 mn
	Session 3	I Read & Write	45 mn
	Session4	I Play Roles	45 mn

Table 4: **The Section Layout – Year 3**

c. The Section Components:

***Hear** a word before you can **say** it*

***Say** a word before you can **read** it*

***Read** a word before you can **write** it*

Linse

The Learners go through each ***section*** as follows:

Session 1: I Sing and Have Fun & *I Listen and Repeat*

① ♬I Sing and Have Fun ☺ ***10 mn***

It is the opening activity of any section and it must be purposeful. Learners need to listen to the different phonemes in English and replicate them so that they can store them in their brains afterwards.

This activity appeals to most young learners as they are full of vitality. Songs are valuable pedagogical tools that must be carefully selected to serve the teaching/ learning sequence. They should contain the target vocabulary and sounds of the section. Not only will they increase learners' enjoyment of learning a foreign language but also maintain motivation.

'Songs can help young learners improve ***their listening skills*** and ***pronunciation***, therefore potentially helping them to improve their speaking skills. 'Songs can also be useful tools in ***the learning of vocabulary, sentence structures, and sentence patterns…***'

Using Songs Effectively to Teach English to Young Learners (Murphey, 1992).

Procedure:

Teachers deal with the song as follows:

- Introduce the song telling one interesting fact about it, using visuals.
- The teacher displays pictures to make learners memorise the new words easily.
- Sing the whole song to the class (or use CD/ smartphone, …)
- Sing the song or play it, one more time. Have students listen to the rhythm and different pitches.
- Have the students sing the whole song with you (don't expect perfection)
- Let the students have the opportunity to sing the song without the teacher while they are singing walk around and listen to the voices of individual students to hear the different pitches.

www. eduref.org

② 👂 ***I Listen and Repeat*** 🗣 ***35 mn***

'Listen & Repeat' is an essential step towards improving the listening skill of young learners, their pronunciation and their learning of new vocabularies. During this session, the teacher uses topic appropriate visual aids (video, realia, pictures, etc...). The teacher is the model; he either reads (models) the words or phrases using his voice or plays the audio and the learners repeat. The teacher may ask simple questions that require short answers to ensure understanding without reference to any written form.

Phonemic awareness/ awareness of individual sounds in a word:

'I Listen & Repeat' is the opportunity for teachers to focus on phonemic awareness which is the ability to manipulate the smallest unit of speech in spoken words. It is an auditory skill, ie; teachers do not refer learners to any written vocabulary. It is important because it is decisive for learners to read. It **prepares** learners to make the connection between letters (**graphemes**) and sounds (**phonemes**), remember familiar words and decodes new ones. It also improves their spelling and writing abilities.

Learners can demonstrate phonemic awareness in several ways , including:

1. ***Isolating phonemes****:* Learners identify specific sounds at the beginning, middle, and end of words.

   Example:- Teacher: what is the **first sound** in the word dog?

   -Learners: **/d /**

2. ***Blending phonemes:*** students blend phonemes to form real words.

   Example:- Teacher: what word is made from **/b/, /a/, /t/** ?

   -Learners : **bat**

3. ***Segmenting words into phonemes:*** Learners break a word into individual sounds by counting the sounds or by moving a marker for each sound.

   Example:-Teacher : How many **sounds** are there in 'bake'?

   -Learners : **3**

Adding phonemes: Learners make new words by adding sounds to a word.

Example:-Teacher: What word do you make when you add a **/b/** to the beginning of the word ring?

-Learners: **bring**

4. ***Deleting phonemes Students identify the word that remains when a phoneme is removed or deleted.***

Example:-Teacher***:*** What word is left when we drop the **/s/** from the word spot?

-Learners: **pot**

5. ***Substituting phonemes:*** Learners make a new word by replacing a specified phoneme with another.

   Example:-Teacher: Say the word bag. Now change the /b/ to an /r/. What is the new word? -Learners: **rag**

In ***phonemic awareness,*** learners deal with vowel consonant words (VC), and then with consonant vowel consonant words (CVC)**.**

Key stage 1 learners are concerned only with ***isolating phonemes, blending phonemes and segmenting words into phonemes.*** The other skills are left for the upper levels.

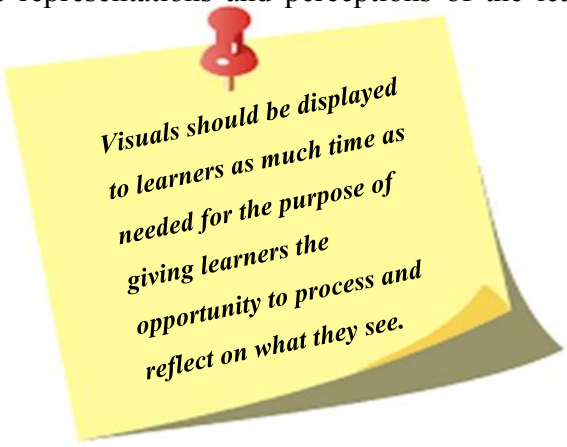

Procedure:

- The teacher needs to choose topic appropriate pictures *or* ***very short texts / dialogues*** to practice language.
- Learners listen to the short text which is supported by pictures to engage learners and trigger their imagination.
- The teacher can either read the story or play an audio. When reading, the teacher needs to pronounce words clearly and adjust the speed to learners, exaggerate body gestures, face learners and avoid any distractors.
- The teacher may ask simple questions that require short answers to ensure understanding without reference to any written form.
- The teacher allows choral then individual repetition **(drilling).**

Using visuals

In addition to audios, teachers use visual aids to ***ensure understanding*** and save both time and efforts. Visuals are valuable and purposeful pedagogical tools for young learners.

- Visuals show situations from real life.
- They engage learners and help them understand visualize key concepts.
- They encourage learners to think about the words they are reading or hearing.
- They reveal the representations and perceptions of the learner and reduce teacher's talking time.

Session 2: 🕮 ***I Read and Discover*** 🕐 ***45 mn***

Reading is one of the most important skills. It does not come naturally; it's a learning journey. The first step towards becoming a fluent reader is matching the sounds of spoken English with individual letters or group of letters. This process is called **phonics**. Reading can be developed and acquired through fun and word games especially for this age range.

There are five **key components of reading** for every child:

- **Phonemic awareness:** is the ability to hear, identify and manipulate these individual units of sound (oral practice).
- **Phonics:** is the process of matching the sounds of spoken English with individual letters or groups of letters. It is referred to as **the alphabetic principle.**
- **Fluency:** is recognizing the words in a text rapidly and accurately and using phrasing and emphasis in a way that makes what is read sound like spoken language.
- **Vocabulary:** The more words learners know, the better they become at reading and understanding the texts.
- **Reading comprehension:** is the culmination of the reading process and the ultimate goal of learning to read. The purpose of mastery of each of the previous skills is to enable comprehension.

Key stage 1 learners are concerned only with ***'Phonemic awareness'*** and ***'Phonics'*.** The other components are left for the upper levels.

Procedure

The objective of **'I Read and Discover'** is to focus on the target **phonic(s)** in the section using ***decoding strategies***. Learners discover how letters are pronounced in a context.

The ***decoding strategies*** should be taught right from the beginning of Primary Education and continue in middle and high school, especially when vocabulary in a context is challenging.

Teaching ***decoding in reading*** should start with **phonemic awareness** (see above).

They should also be taught alongside **writing** so students can practice both decoding and encoding. They should be taught then immediately applied to motivating texts.

https://study.com/learn/lesson/decoding-reading-strategies

Decoding words goes through the following steps:

-**Segmentation**: Learners put their fingers under the word and move from the left to the right. They separate the sounds in the word to recognize individual sounds and understand the relationship between letters and spoken sounds (**phonics**) and create phonemic awareness, emphasizing the beginning and ending sounds.

-**Blending**: Learners put the sounds together in a word, giving special attention to vowels in this stage example short /i/ and short /e/ as in /pit/ and /pet/.

-**Chunking**: Learners recognize familiar word parts (**chunks**) to help them pronounce a word.

-**Sight words**: Sight words are words like '***come, does,* or *who'*** that do not follow the rules of spelling. Decoding these words can be very difficult for young learners. At this stage, learners are not supposed to tackle these words.

-**Present meaning:** make sure learners understand the meaning of each word they read, using the context, drawings, pictures, miming, etc. Checking the understanding of meanings should be frequent.

To achieve complementarity between the activities in the teaching/learning section, teachers use **songs/ chants**, or simple **word cards**. Learners hear sounds and syllables in words. Clapping rhythmically together and read words or recite songs in unison is an effective way to build **phonemic awareness**. This playful and bonding activity is a fantastic way for learners to develop the literacy skill successfully.

Another way to develop the reading skill is to cut out simple cards and write a word containing three sounds on each one (e.g.: van, sat, dig, top, sun, fin, pot).

- Invite learners to choose a card, and then read the word together.
- Hold up three fingers
- Ask them to say the first sound they hear in the word, and then the second, and then the third.

This simple activity builds essential **phonics** and the **decoding strategies** help children learn how to sound out words). The teacher should focus on the sound each letter makes, more than letter names.

Session 3: 🕮*I Read and Write*✍

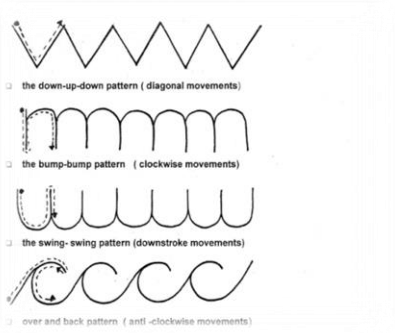

This session is devoted to reading and writing the target phonics in words, or expressions or sentences using the correct features of handwriting. The teacher engages learners in reading and writing activities that require them to apply the phonics they have studied.

In the process of acquiring writing, learners need first to match the sounds of spoken English with individual letters or groups of letters, identify and manipulate these individual units of sounds (***phonics and phonemic awareness***).

Acquiring writing goes through different stages:

Single letter and number formation

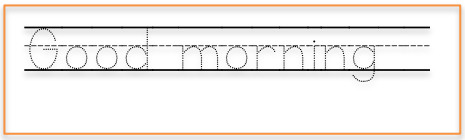

We believe that learners are good at handling the writing tools (pen/pencil, etc.) and a suitable seating position to writing. They can use the tripod grip and are developing **gross and fine motor skill**. In this perspective, **drawing** helps learners in acquiring a good handwriting.

'On every occasion, suitable rhythmic pattern exercises must precede the formation of letters and figures to develop the orientation from left to right and the strokes related to letter formation.' -Adapted from https:// eccurriculum.co.za

We teach letter formation in **groups and families** rather than in alphabetical order because they have a designated start point and a set of directional pushes and pulls of the pencil to reach the designated finish point. This consequently helps to limit **letter reversals** such as '**b**' and'**d**'.

Once the ***letters/numbers can be formed,*** the child can then focus on ***size and accuracy***. The size and accuracy of the letter/number shape increase as the child's gross and fine **motor skills** develop. For a good handwriting style, learners need to know ***how to form the letters*** correctly, i.e. recognize the ***features of writing letters: left to right orientation, sizing, spacing and alignment***. Learners start with lower-case letters, and then capital letters using print writing.

Learning the correct lower-case letter formation makes the transition from single letter formation ***to joined letter handwriting*** much easier.

✍ **Capital letters** are introduced through both handwriting and their semantic function as initials indicating proper nouns (names of people, places, languages, days and months, etc.).

✍ In handwriting practice, the learners should be aware of the differences in the direction of writing and position on the line of some **punctuation marks**:

- Arabic question mark (؟) — English question mark (?)

Tips to Teaching Writing:

- Teacher ***modelling*** of the correct ***formation, sizing and placement*** of letters. For early learners, copying a letter from a correct model is helpful (Graham, 2010).
- Teacher explanations on how to form letters and words must accompany the modeling.
- The introduction of ***letters of the alphabet in formation groups*** rather than in ABC order. This method removes the chance for the visual confusion of letters that are closely positioned within the alphabet (b/d and p/q). This means letters can be taught in the following groups:
  - **anticlockwise letters** (a, c, d, g, q, e, o, f, s)
  - **clockwise letters** (m, n, r, x, z, h, k, p)
  - **the i family letters** (i. t, l, j)
  - **the u family letters** (u, y, v, w, b)
- Regardless of what order letters are chosen to be taught, it is important that students know the ***names of individual letters*** and the ***sounds that can represent each one***. (Graham, 2010).
- ***Linking handwriting to other skills*** so that it is meaningful rather than just a skill or a drill.

Session 4: I Play Roles

Role-play is a form of drama. It is the act of imitating the character and behavior of someone who is different from yourself, as a training exercise. Thus, learners take on another person's role to use language authentically in a situation similar to his/her real life – for example, greeting, introducing oneself...The learners either choose a scene from the text they ***read and perform*** a dialogue or ***play out a dialogue they listened to.***

d. The Problem Solving Situations

Learners are put in '***problem solving situations'*** related to the ***global competence*** and thus to the ***4 target competences.*** The problem solving situation involves ***04 different tasks*** which aim at assessing the attainment of the ***04 target competences***. These tasks are tackled ***separately*** in sessions/ lessons that correspond to each ***target competence.***

They are dealt with at **4** different stages:

Stage1*: *At the beginning of sequence 1, during section 1 .

It is dealt with ***at the beginning of sequence 1***, that is to say; the beginning of the year. It is called the '**initial situation'** and is dealt with through ***04 different tasks*** which are tackled ***separately in sessions*** that correspond to each target competence.

Stage2*: *During pause 1

During the **first pause** (**after 2 sequences),** the ***same*** situation is set to check progress using a grid of evaluation.

Stage3*: *During pause 2

During pause 2 (**after 4 sequences),** the ***same*** situation is set to check progress using a grid of evaluation.

Stage4*: *During pause 3

It is dealt with during the **third pause** ***(at the end of the year***). The learners are trained to ***learn to integrate*** in ***groups*** and then ***individually***. A ***global situation of integration*** should be set to check whether or not ***the global competence*** is attained.

Types of Situations

1. **Initial Situation**:

   At the beginning of the year, learners of third year primary school are put into ***four problem situations***; each one corresponds to one of the **target competences**. These situations are presented as follows:

   a- In a situation related to ***oral comprehension***, the learners may be asked ***to identify the meaning of some words and expressions in a familiar context.***

   b- In a situation related to ***oral production***, the learners may be asked to ***interact using simple words and expressions.***

   c- In a situation related to ***written comprehension***, the learners may be asked to read a text of about 30 words.

d- In a situation related to ***written production***: the learners may be asked to ***write/reproduce letters and words from the whiteboard/ coursebook or any other document taking into account writing features***.

The tasks mentioned above should not exceed 5 minutes as the objective behind is to motivate the learners and stimulate their curiosity to learn and discover.

The answers of the learners should be recorded or kept in order to be used during the pauses to check the learners' progress towards the target competences.

Ultimately, these demands put learners in ***problem situations*** that they are unable to overcome because they do not possess the required resources and skills. Teachers may as well invite a learner from a higher level and ask him to perform the situations mentioned above in front of the absolute beginners so as to generate motivation.

The teachers discuss what happened, explain to their learners that by the end of the school year they will improve and will be able to handle ***the tasks*** successfully.

The ***same*** tasks are set during the ***03 pauses*** to check progress and adjust learning through remediation and standardization.

2. Learning to Integrate

a. Learning to integrate in groups: ***The same tasks*** (related to the 4 domains) are set to check the learners' progress. The learners should compare their present response with the previous one (the response related to the initial situation).

b. Learning to integrate individually: ***Other tasks*** (related to the 4 domains) are set to check the learners' ability to integrate ***individually***.

3. **Situation of integration**

A global situation (a set of different tasks) that is meant to serve the 04 target competences is set and dealt with ***individually.***

Other tasks are set during **the last** pause **(individual learning to integrate & integration)** to check progress and adjust learning through remediation and standardization.
A ***grid of evaluation*** must be elaborated (***see page 31***)

The Problem Solving Situations within the Sequences

Sequences	*Sections*	*Sessions*	*Lessons*	*Timing*
SEQUENCE 1 : FAMILY & FRIENDS	① *FAMILY*	❶	-Initial Situation ***(Oral comprehension) Task 1***	5mn
			-Initial Situation ***(Oral production) Task 2***	
			▪ I Sing and Have Fun	10mn
			▪ I Listen and Repeat	35mn
		❷	Initial Situation ***(Written comprehension)Task 3***	5mn
			▪ I Read and Discover	45m
		❸	Initial Situation ***(Written production) Task 4***	5mn
			▪ I Read and Write	35mn
			▪ I Sing and Have Fun	10mn
		❹	▪ I Play Roles	45mn
Pause 1 : ASSESSMENT / REMEDIATION & STANDARDISATION -The ***same*** tasks **are** set to check progress using a grid of evaluation. ***Task 1- Task 2- Task 3- Task 4***				**2 hours**
Pause2 : ASSESSMENT / REMEDIATION & STANDARDISATION -The ***same*** tasks **are** set to check progress using a grid of evaluation. ***Task 1- Task 2- Task 3- Task 4***				**2 hours**
Pause3 : ASSESSMENT / REMEDIATION & STANDARDISATION				**2 hours**
Learning to integrate — **Group work**: To set the same initial situation ***(same tasks)*** for the sake of checking progress. ***Task 1- Task 2- Task 3- Task 4***			**Individual work**: To set a different situation ***(tasks)*** for the sake of checking progress.	
Integration — **Individual work:** To set a global situation ***(a set of tasks related to the target competences)*** for the sake of checking progress and adjusting learning.				

Stage 1 — Initial situation ①

Stage 4

Learning to integrate ②

Integration ③

Table5: The Problem Solving Situations

Suggested Evaluation Grid

N°	*Criteria*	*Full Mastery*	*Acceptable Mastery*	*Partial Mastery*	*Minimum Mastery*
	ORAL INTERACTION				
1	Demonstrate the attitude of an ***attentive listener.***				
2	Recognize the meaning of words and expressions using **phonemic awareness**, **paralinguistic features** and **visuals**.				
3	***Infer the topic*** of the oral message				
4	Use **paralinguistic features according to the context.**				
5	Select appropriate words, or expressions and ***paralinguistic features*** to interact orally.				
	WRITTEN COMPREHENSION				
1	***Demonstrate*** respect to peers' readings.				
2	***Read a simple message of about 30 words using the decoding strategies.***				
3	***Apply punctuation marks accurately when reading.***				
4	Sound letters, or words or expressions ***or sentences*** correctly.				
5	***Recognize the meaning of word, or expressions or sentences using the context and visuals.***				
6	***Infer the topic of the reading passage***.				
	WRITTEN PRODUCTION				
1	***Value*** others' writings.				
2	**Implement the features of writing:** a- Shaping b- Alignment c- Sizing d- Spacing between letters and between words.				
3	***Achieve*** readability.

PAUSE3 :ASSESSMENT / REMEDIATION & TANDARISATION

Learning to integrate		**Integration**	
Group work: To set the **same tasks** of the initial situation for the sake of checking progress.	**Individual work:** To set **different tasks** related to the global competence for the sake of checking progress.	**Individual work:** To set a **global situation** ***(a set of tasks related to the target competences)*** for the sake of checking progress and adjusting learning.	**2hours**

Table7: The Planning Learning Canvas

Year 4

Key Stage 1- Year 4 Syllabus

KEY STAGE 1 **YEAR 4**

Exit Profile	**Global competence**	Interact orally, comprehend oral messages and identify the meaning of words, expressions and simple sentences, decode symbols, read simple messages and produce relevant information to fill in a form.	
	Values	**National Identity**	➢ The learner is proud of being Algerian, Muslim, Arab and Amazigh.
		National Conscience	➢ S/he respects her/his nation's constant fundamental tenets.
		Citizenship	➢ S/he demonstrates respect towards others.
		Openness to the World	➢ S/he Exchanges and communicates with friends from English-speaking countries to widen her/ his friendship.
	Cross-curricular competences	**Intellectual Competence**	**The learner can** ▪ discover the relationship between the context, paralinguistic features and the meaning of words, expressions and sentences. ▪ discover the usage of words, expressions and sentences in oral interaction. ▪ demonstrate understanding of reading basics and the strategies of decoding symbols. ▪ demonstrate understanding of the features of correct handwriting.
		Methodological Competence	**The learner can** ▪ make use of the context and paralinguistic features to identify the meaning of words, expressions and sentences. ▪ exploit the linguistic repertoire and paralinguistic features to interact orally. ▪ employ reading basics and the decoding strategies to understand messages. ▪ implement the features of correct handwriting.
		▪ **Communicative Competence**	**The learner can:** ▪ react to verbal and non-verbal messages to show understanding ▪ select the appropriate words, expressions, sentences and paralinguistic features to interact orally. ▪ communicate reading basics and the decoding strategies to peers. ▪ achieve readability through the appropriate use of the features of correct handwriting.
		▪ **Personal and Social Competence**	**The learner can:** ▪ Collaborate with peers verbally and non-verbally to comprehend oral messages. ▪ Consider the context and paralinguistic features when interacting. ▪ Consider reading basics and the decoding strategies to achieve others' understanding. ▪ value others' writings.

Domains	*Target Competence*	*Components of the Competence*	*Resources*	*Cross-Curricular Resources*	*Timing*
Oral Comprehension	***Comprehend oral messages and identify the meaning of words, expressions and sentences in familiar context using paralinguistic features.***	**The learner can:** 1. recognise the meaning of words, expressions and sentences using the context and paralinguistic features. **2.** use the context and paralinguistic features to infer meaning of words, expressions and sentences. **3.** be an attentive listener.	**Teaching materials:** Videos, songs, cartoons, posters, pictures, shorts texts, short stories, etc. **Key Vocabulary** Words and chunks related to the learners' interests, immediate environment and needs. **Lexis related** ▪ Numbers (11-30) ▪ Extended Family (aunts, uncles, cousins, nephews, nieces, sons, daughters) ▪ Friends & Keypals. ▪ Languages and nationalities. ▪ School mapping. ▪ Fun time ▪ games ▪ Body ▪ Health ▪ Food ▪ Animals (farm, zoo)	***Intellectual*** -Discover the relationship between the context, paralinguistic features and the meaning of words, expressions and sentences. ***Methodological*** -Make use of the context and paralinguistic features to identify the meaning of words, expressions and sentences. ***Communicative*** -React to verbal and non-verbal messages to show understanding. ***Personal and Social*** -Collaborate with peers verbally and non-verbally to comprehend oral messages.	**29h**

Oral production	***Interact orally in communicative situations related to the learner's immediate environment, daily concern and interests using simple words, expressions and sentences.***	**The learner can:** 1. identify simple words, expressions, sentences to interact orally. 2. use simple words, expressions, sentences and paralinguistic features to interact orally. 3. respect the interlocutor.	**Grammar** Oral formulaic expressions and chunks related to the learners' interests, immediate environment and needs. ▪ **Nouns** ▪ **Adjectives:** related to the topics ▪ **Prepositions** *__Location__: on the left/on the right/behind/in front of ▪ **Article**: the ▪ **Interjections**: wooow! hummm! ▪ **Pronouns (personal & demonstrative)**: they, you, we, this, that, these, those. ▪ **Present simple** (to love / to like / to prefer,…) ▪ **Present continuous** ▪ **Statements** ▪ **Questions**: *Wh-questions (how, what, where, when, how many) ▪ *yes/no questions (do/does, is/are…? is there? /are there?)	***Intellectual*** -Discover the usage of words, expressions and sentences in oral interaction. ***Methodological*** -Exploit the linguistic repertoire and paralinguistic features to interact orally. ***Communicative*** -Select the appropriate words, expressions, sentences and paralinguistic features to interact orally. ***Personal and Social*** -Consider the context and paralinguistic features when interacting orally.	

Written comprehension	***Decode symbols, read simple messages of about 40 words and understand the meaning of words and sentences using reading basics and the decoding strategies***	**The learner can:** 4. identify reading basics and the decoding strategies to read messages. 5. use reading basics and the decoding strategies to understand the meaning of messages. 6. show respect to his peers' readings.	**Teaching materials:** Videos, songs, cartoons, posters, pictures, short stories, and short texts of about 40 words, etc. **<u>Phonics (Sound and Spelling)</u>** *Vowels (short, long): - **/ʊ/, /ə/** -**/iː/, /ɑː/, /ɔː/, /ɜː/, /uː/** - consonant sounds **/θ/ /ð/, /ʃ/, /ʧ/** **<u>Capitalization / Punctuation</u>** ❖ **Capital letters**: -At the beginning of the sentence, proper nouns (persons, towns, countries, nationalities, months,…). ❖ **Punctuation:** -Full stop, question mark, exclamation mark, comma, apostrophe in contracted forms.	***Intellectual*** -Demonstrate understanding of reading basics and the decoding strategies. ***Methodological*** -Employ reading basics and the decoding strategies to understand messages. ***Communicative*** -Communicate reading basics and the decoding strategies to peers. ***Personal and Social*** -Consider reading basics and the decoding strategies to achieve others' understanding.	**8 h**
Written production ***(Most of the time, the domains are integrated)***	***Produce words using correct handwriting to fill in a form with specific details related to the learners' immediate environment, daily concern and interests.***	**The learner can:** 4. recognize the components of the form. 5. complete a form using correct handwriting and relevant information. 6. respect others' writings.	**<u>Handwriting</u>** ▪ Numbers in letters. ▪ Connected handwriting style (cursive) **<u>Capitalization</u>** ▪ **Capital letters:** At the beginning of the sentence, proper nouns (persons, towns, countries, nationalities, months,…)	***Intellectual*** -Demonstrate understanding of the features of correct handwriting. ***Methodological*** -Implement the features of correct handwriting. ***Communicative*** -Achieve readability through the appropriate use of the features of correct handwriting. ***Personal and Social*** -Value others' writings.	**5 h**
My Project: Mini Dictionary					

Topics and Communicative Objectives- Year 4

Year 4			
SEQUENCE		**SECTIONS**	**COMMUNICATIVE OBJECTIVES**
①	***Family & Friends***	① ***Family***	- Introduce family members. (family relationship, name, age, occupation, place of residence) - Ask and answer questions about family members.
		② ***Friends***	- Introduce friends/ e-pals. (Name, age, occupation, nationality, place of residence, language) - Name countries and nationalities. - Ask and answer questions about friends/ e-pals.
②	***School***	① ***Facilities***	• Name school facilities (classrooms, library, canteen, schoolyard, staffroom, toilets... • Ask and answer questions about school facilities.
		② ***Mapping***	• Locate school facilities (classrooms, library, canteen, schoolyard, staffroom, toilets...) • Ask and answer questions about school facilities location.
③	***Fun Time & Games***	① ***Fun Time***	○ Name fun time activities: indoor and outdoor activities, individual and team sport... ○ Ask and answer questions about favourite fun time activities.
		② ***Games***	○ Name games: individual, team, physical, mental, digital... ○ Ask and answer questions about favourite games.
④	***Food & Health***	① ***Food (healthy food)***	❖ Name healthy food (bread, cereals, vegetables, fruit, meat, drinks, dairy, fish). ❖ Ask and answer questions about healthy food.
		② ***Health***	❖ Name body parts: head, shoulders, knees, toes, legs, arms, ... ❖ Ask and answer questions about common health problems.
⑤	***Animals***	① ***Farm***	➢ Name animals in the farm. ➢ Ask and answer questions about animals (name, food, body parts, size, colour).
		② ***Zoo***	➢ Name animals in the zoo. ➢ Ask and answer questions about animals (name, food, body parts, colour, size, habitat).

Table3: Topics and Communicative Objectives- **Year 4**

1. Planning

Practitioners and users of this guide need to be aware of the different stages of the teaching/learning process. This latter comprises **planning**, **implementation**, and **evaluation.** Planning learning is the first step towards successful teaching. A learning plan is an action plan that defines how learning can be achieved. It ensures clarity of vision so that the progress is efficient.

Time Allocation:

Key stage 1 learners have English class of forty five minutes twice a week.

Level	Yearly timing	Weekly timing	Annual amount
Key stage 1	28 weeks	1h30 /week	42 hours

Table1: Time Allocation

N.B. The time allotted for assessment and remediation is four (04) weeks.

a. The Teaching/ Learning Framework:

There are ***05 learning sequences*** along the 4th Year Primary Education. Each sequence comprises ***2 sections.*** Each ***section*** requires **3 hours 45** minutes **(5 sessions).**

Along the school year, there are three (03) phases of 2 hours 15 minutes (**3sessions**) devoted to ***assessment***, ***remediation*** and ***standardization.*** See the table below:

Sequence 1 2 sections	***Pause 1***	**Sequence 3** 2 sections	***Pause 2***		***Pause 3***
Sequence 2 2 sections	***Assessment, Remediation & standardization***	**Sequence 4** 2 sections	***Assessment, Remediation & standardization***	**Sequence 5** 2 sections	***Assessment, Remediation & standardization***

Table3: **The Teaching/ Learning Framework**

b. **The Section Layout:** The section is the basic component of a sequence. It includes 5 ***sessions*** of **45 minutes** each. In each session, there is either one or 2 communicative ***objectives*** to be achieved through a set of ***tasks***.

Section	***Session 1***	♬ I Sing & Have Fun	10 mn
		👂 I Listen & Repeat	35mn
	Session 2	🕮 I Read & Discover	45mn
	Session3	🕮 I read & Enjoy	45mn
	Session 4	✍ I Read & Write	45mn
	Session5	🎭 I Play Roles	45mn

Table 4: **The Section Layout– Year 4**

c. The Section Components:

The Learners go through each ***section*** as follows:

Session 1: I Sing and Have Fun & *I Listen and Repeat*

① ♬I Sing and Have Fun ☺ *10 mn*

Refer to page 20

② 👂 *I Listen and Repeat* 🗣 *35 mn*

Refer to page 21

Session 2: 🕮 *I Read and Discover* 🎙 *45 mn*

Refer to page 23

Session 3: 🕮 *I Read and Enjoy* 🕐 *45 mn*

This session is devoted to ***reading through games*** to make learners better readers. It helps them enrich their stock of vocabulary, develop their spelling and writing skills and their pronunciation.

Games and fun activities are a vital part of **teaching English as a foreign language**. They liven up the lesson and ensure that learners leave the classroom wanting more. They help learners to increase self-confidence by forgetting about the stress of giving accurate answers. They motivate and engage them through competition. They also add to the effectiveness of teaching. "Games introduce an element of competition into language learning which can help create a purposeful use of language" (Prasad 2003).

Helpful Tips

- Teachers should explain the ***rules*** and illustrate them before starting any game
- The game should focus on ***learning, practising and reviewing*** previously taught items.
- The game should involve a ***friendly*** competition.
- The game should ***involve*** and interest all learners.

Suggested Games:

1. Board Race

Board Race is a fun game that is used for ***revising vocabulary***, whether they are words from the lesson you've just taught or words from a lesson you taught last week. It is a great way of checking what your learners already know.

How to Play:

- Split the class into two teams and give each team a colored marker.
- If you have a very large class, it may be better to split the students into teams of 3 or 4.
- Draw a line down the middle of the board and write a topic at the top.
- The students must then write as many words as you require related to the topic in the form of a relay race.
- Each team wins one point for each correct word. Any words that are unreadable or misspelled are not counted.

2. Word Jumble Race

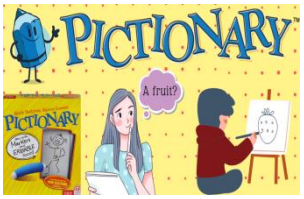

This is a great game to encourage team work and bring a sense of competition to the classroom. It is perfect for practicing reading.

How to Play:

- Write out a number of words, using different colors for each word.
- Cut up the words so you have a handful of letters.
- Put each word into hats, cups, boxes or any objects you can find, keeping each separate.
- Split your class into teams of 2, 3, or 4. You can have as many teams as you want but remember to have enough words to go around.
- Teams must now put their letters in the correct order to get correct words.
- The winning team is the first team to have all letters correctly ordered.

4. Pictionary

This is another game that works well with any age group; children love it because they can get creative in the classroom. Pictionary can help learners practice their vocabulary and helps to see if they're remembering the words they've been learning.

How to Play:

- Before the class starts, prepare a bunch of words and put them in a bag.
- Split the class into teams of 2 and draw a line down the middle of the board.
- Give one team member from each team a pen and ask them to choose a word from the bag.
- Tell the students to draw the word as a picture on the board and encourage their team to guess the word.
- The first team to shout the correct answer gets a point.
- The student who has completed drawing should then nominate someone else to draw for their team.
- Repeat this until all the words are gone - make sure you have enough words that each student gets to draw at least once!

Session 4: 🕮 *I Read and Write*✍

In year 4, we expect learners are using the writing tools effectively (pen, pencil, ruler, etc.). They were trained to write ***print*** handwriting, in year 3.

So, they are supposed to be able to form upper and lower case of letters using the features of writing and write words and sentences.

Since the children's fine motor skills develop, they enable them to form more refined versions of the letters/numbers using lined paper. Once, learners have learnt to form lower-case letters correctly, now they can move to the following step which is ***joined handwriting*** (cursive). They may copy written recording (the date, copies of very short written texts from the board/ textbook, work cards, etc.) correctly. Learning to join letters for handwriting enables children to develop a speedy, fluid and legible handwriting style.

This session includes completing a form after having read the very short text in ***session 2 ' I Read and Discover'***. The form –they have to complete- must be be related to the topic around which the section is revolving. For instance, the learners may be asked to design a ***family tree*** when introducing family members and to complete an ***ID card*** when introducing a friend .

Procedure

- Learners refer to the very short text read in session 2.
- Learners may be asked to read the text aloud (a few reading times would be enough).
- Teacher introduces the form and makes sure the learners are familiar with its components.
- Learners select appropriate words/ expressions to complete the form.

- Learners should be trained to copy words and short sentences in ***joined handwriting*** along the teaching/learning process.

- ***Teachers are the models in class; they should have good writing habits.***
- ***Young children are not always aware that writing starts from the top left corner and finishes at the bottom right.***
- ***The rules must apply to both-teachers and learners.***
- ***If teachers write anyhow, learners will replicate them. Children are good imitators.***
- ***The work of the teacher on the board must at all times be* an *example of correct,***

Session 5: I Play Roles

Refer to page 27

d. The Problem Solving Situations

Learners are put in '***problem solving situations'*** related to the ***global competence*** and thus to the ***4 target competences.*** The problem solving situation involves ***04 different tasks*** which aim at assessing the attainment of the ***04 target competences***. These tasks are tackled ***separately*** in sessions/ lessons that correspond to each ***target competence.***

They are dealt with at **4** different stages:

Stage1*: *At the beginning of sequence 1, during section1.

It is dealt with ***at the beginning of sequence 1***, that is to say; the beginning of the year. It is called the '**initial situation'** and is dealt with through ***04 different tasks*** which are tackled ***separately in sessions*** that correspond to each target competence.

Stage2*: *During pause 1

During the **first pause** (**after 2 sequences),** the ***same*** situation is set to check progress using a grid of evaluation.

Stage3*: *During pause 2

A**fter 4 sequences,** the ***same*** situation is set to check progress using a grid of evaluation.

Stage4*: *During pause 3

It is dealt with during the **third pause** ***(at the end of the year***). The learners are trained to ***learn to integrate*** in ***groups*** and then ***individually***. A ***global situation of integration*** should be set to check whether or not ***the global competence*** is attained.

Types of Situations

4. **Initial Situation**:

   At the beginning of the year, learners of fourth year primary school are put into ***four problem situations***; each one corresponds to one of the **target competences**. These situations are presented as follows:

   a. In a situation related to ***oral comprehension***, the learners may be asked ***to identify the meaning of sentences in a very short oral text.***
   b. In a situation related to ***oral production***, the learners may be asked to ***interact orally using simple words, expressions and sentences.***
   c. In a situation related to ***written comprehension***, the learners may be asked ***to read a text of about 40 words.***

d- In a situation related to ***written production***, the learners may be asked to ***fill in a form with specific details using correct handwriting.***

The tasks mentioned above should not exceed 5 minutes as the objective behind is to motivate the learners and stimulate their curiosity to learn and discover.

The answers of the learners should be recorded or kept in order to be used during the pauses to check the learners' progress towards the target competences.

Ultimately, these demands put learners in ***problem situations*** that they are unable to overcome because they do not possess the required resources and skills. Teachers may as well invite a learner from a higher level and ask him to perform the situations mentioned above in front of the learners so as to generate motivation.

The teachers discuss what happened, explain to their learners that by the end of the school year they will improve and will be able to handle ***the tasks*** successfully.

The ***same*** tasks are set during the ***03 pauses*** to check progress and adjust learning through remediation and standardization.

5. Learning to Integrate

a. Learning to integrate in groups: ***The same tasks*** (related to the 4 domains) are set to check the learners' progress. The learners should compare their present response with the previous one (the response related to the initial situation).

b. Learning to integrate individually: ***Other tasks*** (related to the 4 domains) are set to check the learners' ability to integrate ***individually***.

6. **Situation of integration**

A global situation (a set of different tasks) that is meant to serve the 04 target competences is set and dealt with ***individually.***

Other tasks are set during **the last** pause **(individual learning to integrate & integration)** to check progress and adjust learning through remediation and standardization.
A ***grid of evaluation*** must be elaborated (***see page 61***)

The Problem Solving Situations within the Sequences

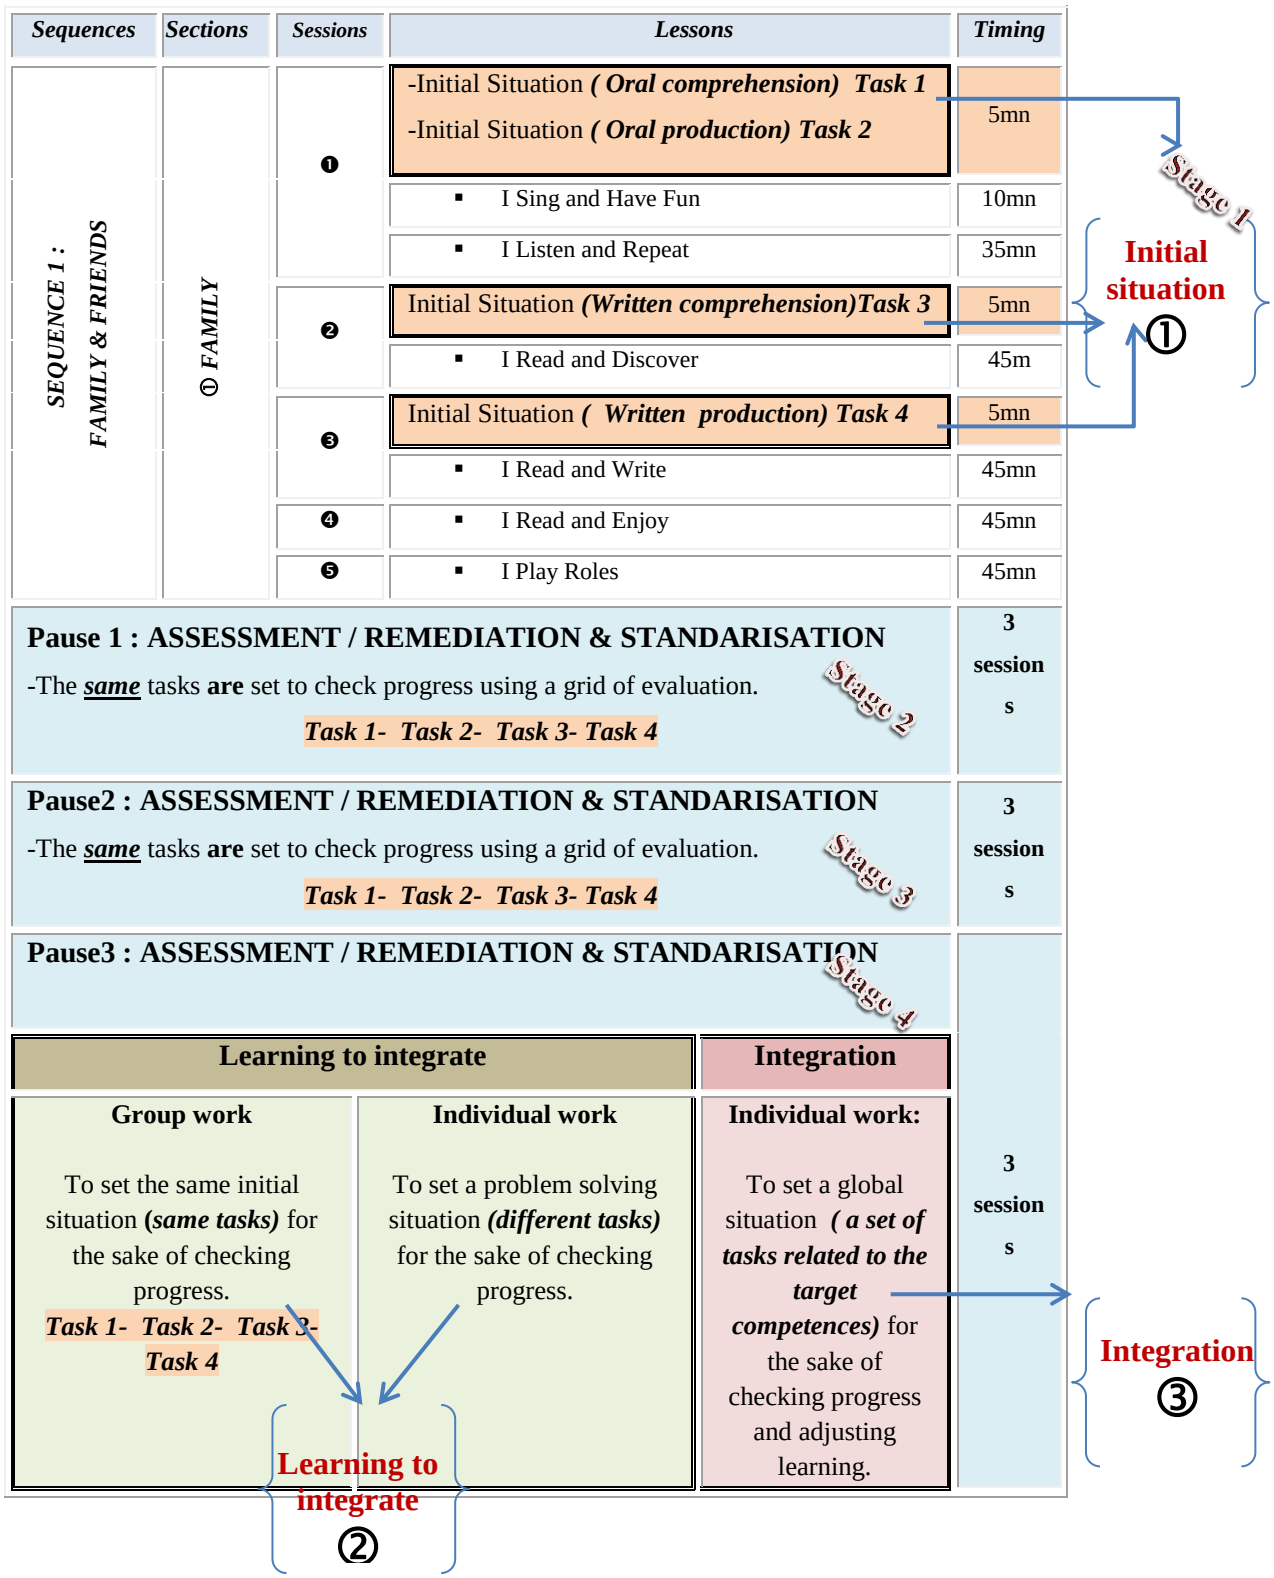

Table5: The Problem Solving Situations

Suggested Evaluation Grid

N°	*Criteria*		*Full Mastery*	*Acceptable Mastery*	*Partial Mastery*	*Minimum Mastery*
	ORAL INTERACTION					
1	Demonstrate the attitude of an ***attentive listener.***					
2	Recognize the meaning of words, expressions or sentences using ***phonemic awareness***, ***paralinguistic features*** and **visuals**.					
3	***Infer the topic*** of the oral message.					
4	Use ***paralinguistic features according to the context.***					
5	Select appropriate words, expressions , or sentences and ***paralinguistic features*** to interact orally.					
	WRITTEN COMPREHENSION					
1	Demonstrate **respect** to peers' readings.					
2	Use the ***decoding strategies*** appropriately					
3	***Read short texts of about 40 words using the decoding strategies.***					
4	***Apply punctuation marks accurately when reading.***					
5	**Infer the meaning** of words, expressions and sentences using the context and visuals.					
6	Recognize **the topic** of the reading passage.					
	WRITTEN PRODUCTION					
1	Demonstrate ***respect*** to others' writings.					
2	Recognize **the components** of the form.					
3	***Complete*** the ***form*** with the right piece of information.					
4	***Apply the features of correct handwriting to achieve readability:***	**a.** Write consistently on the line and within lines.				
		b.Form all letters and numbers correctly				
		c.Leave spaces between words and letters				
		d. Leave spaces between words in sentences				
		e.Distinguish between tall and short letters and those that sit beneath the line.				
		f.Use capitals where appropriate				

Table : Year4 Evaluation Grid

Year 4 learning Plan

Global competence	***Interact orally, comprehend oral messages and identify the meaning of words, expressions and simple sentences, decode symbols, read simple messages and produce relevant information to fill in a form.***	
Values	**National Identity** **National Conscience** **Citizenship** **Openness to the World**	➢ The learner is proud of being Algerian, Muslim, Arab and Amazigh. ➢ S/he respects her/his nation's constant fundamental tenets. ➢ S/he demonstrates respect towards others. ➢ S/he Exchanges and communicates with friends from English-speaking countries to widen her/ his friendship.
Cross-curricular competences	**Intellectual Competence**	**The learner can** ▪ discover the relationship between the context, paralinguistic features and the meaning of words, expressions and sentences. ▪ discover the usage of words, expressions and sentences in oral interaction. ▪ demonstrate understanding of reading basics and the strategies of decoding symbols. ▪ demonstrate understanding of the features of correct handwriting.
	Methodological Competence	**The learner can** • make use of the context and paralinguistic features to identify the meaning of words, expressions and sentences. • exploit the linguistic repertoire and paralinguistic features to interact orally. • employ reading basics and the decoding strategies to understand messages. • implement the features of correct handwriting.
	Communicative Competence	**The learner can:** ▪ react to verbal and non-verbal messages to show understanding ▪ select the appropriate words, expressions, sentences and paralinguistic features to interact orally. ▪ communicate reading basics and the decoding strategies to peers. ▪ achieve readability through the appropriate use of the features of correct handwriting.
	Personal and Social Competence	**The learner can:** ▪ collaborate with peers verbally and non-verbally to comprehend oral messages. ▪ consider the context and paralinguistic features when interacting. ▪ consider reading basics and the decoding strategies to achieve others' understanding. ▪ value others' writings.
Domains	**Oral comprehension - Oral production - Written comprehension - Written production**	
Target competences	*① Comprehend oral messages and identify the meaning of words, expressions and sentences in familiar context using paralinguistic features.* *② Interact orally in communicative situations related to the learner's immediate environment, daily concern and interests using simple words, expressions and sentences.* *③ Decode symbols, read simple messages of about 40 words and understand the meaning of words and sentences using reading basics and the decoding strategies* *④ Produce words using correct handwriting to fill in a form with specific details related to the learners' immediate environment, daily concern and interests.*	

Seq	*Sections*	Domains	Communicative objectives	Resources	*Cross curricular resources*	*Values*
***SEQUENCE1:* Family & Friends**	**① Family**	***Oral comprehension& Oral production***	-Introduce family members. (family relationship, name, age, occupation, place of residence). - Ask and answer questions about family members (name, age, occupation). -Recognize ***simple words*** in familiar context using ***phonemic awareness.*** -Act a scene out.	**Teaching materials:** Videos, songs, cartoons, posters, pictures, short stories, etc. **Key vocabulary:** -Numbers (11-30)- -Names of family members (family & extended family) - jobs (-er , -or, -ist) **Grammar** **Present simple : to be-to live-to have** ➢ personal pronouns ➢ possessive adjectives ➢ there is / there are ➢ **Articles: a / an ➢ preposition : in** ➢ Wh questions: **who, how old,** what ➢ Yes / no questions :Do/does ?,Is / are…? ***Suggested communicative situation*** ***-Who is it?*** ***-It's my cousin, Ahmed.*** ***-How old is he ?*** ***- He is 25.*** ***- Is he a teacher ?*** ***- No, he is a journalist.*** ***- Does he live in Algiers ?*** ***- No, he lives in Tlemcen.***	***Oral comprehension*** ***Intellectual:*** Discover the relationship between the context, paralinguistic features and the meaning of words, expressions and sentences. ***Methodological:*** -Make use of the context and paralinguistic features to identify the meaning of words, expressions and sentences. ***Communicative :***-React to verbal and non-verbal messages to show understanding. ***Personal and Social :***Collaborate with peers verbally and non-verbally to comprehend oral messages. ***Oral production*** ***Intellectual:*** Discover the usage of words, expressions and sentences in oral interaction. ***Methodological:*** -Exploit the linguistic repertoire and paralinguistic features to interact orally. ***Communicative:*** Select the appropriate words, expressions, sentences and paralinguistic features to interact orally. ***Personal and Social :*** Consider the context and paralinguistic features when interacting orally.	**-Be an attentive listener./ - Respect the interlocutor.**
		Written comprehension	-***Read*** a very short text text of about 30 words related to the topic using ***decoding strategies.*** -***Read words containing*** the sounds: **/i/ vs /i :/** ***Identify*** the sounds**: /i/ vs /i :/**	**<u>Phonics (Sound and Spelling)</u>** - A very short text related to the topic -The sounds : • **/i/ vs /i:/**	***Intellectual:***-Demonstrate understanding of reading basics and the decoding strategies. ***Methodological:***Employ reading basics and the decoding strategies to understand messages. ***Communicative :*** Communicate reading basics and the decoding strategies to peers. ***Personal and Social :***-Consider reading basics and the decoding strategies to achieve others' understanding.	**show respect to his peers' readings.**
		Written production	-***Copy*** words and sentences using connected handwriting (cursive). -***Complete a form*** appropriately. -***Apply*** the features of correct handwriting .	**<u>Handwriting</u>** ✎ Connected handwriting (cursive). ✎ Capital letters. ✎ Punctuation.	***Intellectual:*** Demonstrate understanding of the features of correct handwriting. ***Methodological:*** Implement the features of correct handwriting. ***Communicative :*** Achieve readability through the appropriate use of the features of correct handwriting. ***Personal and Social :***-Value others' writings.	**respect others' writings.**

What worked	***What hindered***	***Action plan***

Assessment

Assessment is the ongoing process of gathering evidence of what each student actually knows, understands, and can do to increase their learning and development.

Diagnostic Assessment

Diagnostic assessment can help identify students' current knowledge of a subject, their skill sets and capabilities, and to clarify misconceptions before teaching takes place. Knowing students' strengths and weaknesses can help teachers plan what to teach and how to teach it.

Formative Assessment:

It refers to a wide variety of tools that teachers use to conduct in-process evaluations of students' learning progress during a lesson, section, or unit. Formative assessment helps teachers identify learners' strengths and weaknesses so that adjustments can be made.

Formative Assessment Tools

When we think of assessment, we often think about tests. But good assessment is much more than tests - it's a chance to discover what our students understand so that we can help them learn and grow.

"The goal of formative assessment is to monitor student learning to provide ongoing feedback that can be used by instructors to improve their teaching and by students to improve their learning. More specifically, formative assessments:

- Help students identify their strengths and weaknesses and target areas that need work.
- Help teachers recognize where students are struggling and address problems immediately.

Formative assessments are generally low stakes, which means that they have low or no point value.

- **Nonverbal Assessment**

  This type of assessment is very useful with the young learners. It helps teachers to determine whether the individual truly understands concepts by asking him to physically demonstrate his understanding of words and text ***through physical demonstration*** or the creation of a visual representation such as a drawing or a model.

- **Emoji self /peer Assessment**

  This technique involves the students to assess themselves or their peers by showing the appropriate ***emoji*** that reflects their performance in a given task.

- **K-W-L Chart**

  The K-W-L chart is a simple way to ask questions concerning "who" and "what" questions. The ***K*** category asks the learners to state what they knew before they began the course to check their pre-requisites. The ***W*** section provides learners with the opportunity to state what they want to know or gain from the instruction provided. The ***L*** category provides students with an area to state what they have learned in the class.

- **Think- Pair – Share**

  Students do the task individually (***think***). Then, they pair up with a classmate and discuss their answers (***pair***).Finally, they discuss their answers in groups (share).

- **Portfolio assessments**

  Portfolios are practical ways of assessing student work throughout the entire year. With this method, you can systematically collect ***descriptive records*** of a variety of student work over time that reflects growth toward the achievement of the objectives set before. Portfolios include information, ***sample work***, and evaluations that serve as indicators for student performance. By documenting student performance over time, portfolios are a better way to crosscheck student progress than just one measure alone. Portfolios can include:

  - Samples of students' handwriting.
  - Re-ordered short stories images.
  - Tasks sheets.
  - Drawings representing student content knowledge.
  - Teacher descriptions of student accomplishments, such as performance on oral tasks.
  - Checklists.
  - Drafts related to the initial situation.

- **Entry tickets**

This technique (sometimes called Warm-Up, Do Now or Bell Ringer) gets students working as soon as they enter the classroom, increasing instruction time. Students are given Entry Tickets as they arrive at the door, follow the instructions, and complete the task immediately.

- **Exit Tickets**

Exit Tickets or "Tickets to leave" are a formative assessment tool offering an effective way to end a class. Teachers may use exit tickets to assess students' understanding of the topics they are teaching in class.

Summative assessment

Summative assessment takes place after the learning has been completed and provides information and feedback that sums up the teaching and learning process. Typically, no more formal learning is taking place at this stage. Learners usually receive a score or a mark from this kind of testing.

Glossary

Assessment	***Judging*** learners' performance by ***collecting information about it***.
Chunks	Collection of ***words*** which occur ***together***. Examples: good morning, nice to see you...
Decoding	***Sounding*** out letters and ***understanding*** the word they make up.
Decoding Strategies	**Segmentation**: separating the sounds in a word **Blending**: putting sounds together in a word **Chunking**: recognizing familiar word parts to help pronounce a word **Sight words**: memorizing non-phonetic high-frequency words **Present meaning:** make sure learners understand the meaning of the word.
Diagnostic Assessment	Identifies learners' knowledge of a subject, their skill sets and capabilities, and to clarify misconceptions ***before*** teaching takes place.
Drilling	A technique where the teacher asks the learners to ***repeat*** words and phrases (in **chorus** and **individually**) and them to practice ***substitute*** phrases.
Dysgraphia	When children start writing, some of them might face difficulties in **forming**, **sizing** and **spacing letters** or **write wrong or misspelled words**. These are the symptoms of a writing disability called **dysgraphia**.
Dyslexia	It is a learning difficulty that affects the reading and the writing skills. Learners encounter difficulties in phonological awareness, verbal memory and verbal processing speed.
Fine motor skills	Involve small muscles working with the brain and nervous system to control movements in areas such as the hands, fingers, lips, tongue and eyes. (Eating, writing, manipulating objects and getting dressed**).**
Formative assessment	Provides feedback and information ***during*** the learning process and measures both learners' and teacher's progress.

Grapheme	A letter or group o**f letters** representing the sound. You use the letter names to identify Graphemes, like the "c" in car where the hard "c" sound is represented by the letter "c."
Learning sequence	Refers to the organization and presentation of activities of a teaching-learning period in a complete structure, carried out by both teachers and pupils, with the aim of creating situations that enable to develop meaningful learning.
Letter reversals	Refers to reversing letters in reading or writing such as forming a letter '**b'** as a letter '**d**' or letter '**p'** as a letter '**q**'.
Linguistic repertoire	Refers to the ***collection of linguistic resources*** that a person has accumulated over the course of their life and that they utilize and interpret in their interactions with other people. (Blommaert & Backus 2011)
Paralinguistic features	The aspects of language that are not related to the formal systems of language (such as phonology, syntax, grammar etc.). These include the use of ***body gestures***, ***facial expressions***, ***eye contact***, ***the voice tone*** to convey a message without using words.
Phoneme	The ***smallest sound unit*** in a language that distinguishes one word from another such as the ***/s*** /of *sing* and the /**r**/ of *ring*.
Phonemic Awareness	The ability to ***identify*** and ***manipulate phonemes*** in spoken words. It is an important skill that gets learners ready to develop into readers.
Phonics	The understanding of the ***relationship*** between the ***phoneme*** (the sound of spoken language) and the ***grapheme*** (the letters of written language). Readers use these relationships to recognize familiar words and to decode unfamiliar ones.
Summative assessment	Takes place ***after*** the learning has been completed and ***provides information and feedback*** that sums up the ***teaching and learning process.***
Test	A ***tool*** that is intended to ***measure*** students' knowledge or their ability to complete a ***particular task.***
